## WORK EXPERIENCE

**Clio** **September 2021 – August 2022**

*Software Developer Intern* *Burnaby, BC*

- Clio provides cloud based client management software for lawyers and law firms.
- Collaborated within a growth-focused team to ideate, develop, and A/B test numerous features, resulting in tangible enhancements to user experience and retention metrics.
- Proficiently utilized TypeScript, AngularJS, Ruby, and Ruby on Rails frameworks to implement significant improvements to production code, actively overseeing feature deployment.
- Provided valuable feedback and constructive criticism during code reviews, one-on-one discussions, and project planning sessions, fostering a collaborative and iterative development environment.

**RBC** **May 2020 – September 2020**

*Software Developer* *Toronto, ON*

- Collaborated within a compact team to craft web-based tools aimed at enhancing productivity and fostering collaboration among RBC Developers.
- Facilitated the construction of the backend of an internal application utilizing SpringBoot and Elasticsearch, facilitating the aggregation and streamlined search functionality for RBC's internal tools and resources.
- Authored software documentation for existing RBC projects and onboarding guides, ensuring clarity and accessibility for team members.

## EDUCATION

**Queen's University** **April 2022**

*Bachelor of Computing (Honours), Specialization: Computing and Mathematics* *Kingston, ON*

- Dean's Honour List
- Relevant courses include: System Level Programming, Computer Architecture, Operating Systems, Algorithms, Fund. Web Development, Linear Data Analysis, Artificial Intelligence
